MASTERCLASS TRAINING

POSIT / RSTUDIO IDE

RStudio Interface & Configuration Guide

Comprehensive walkthrough of core panes, sub-screens, tool integration, and workspace custom options.

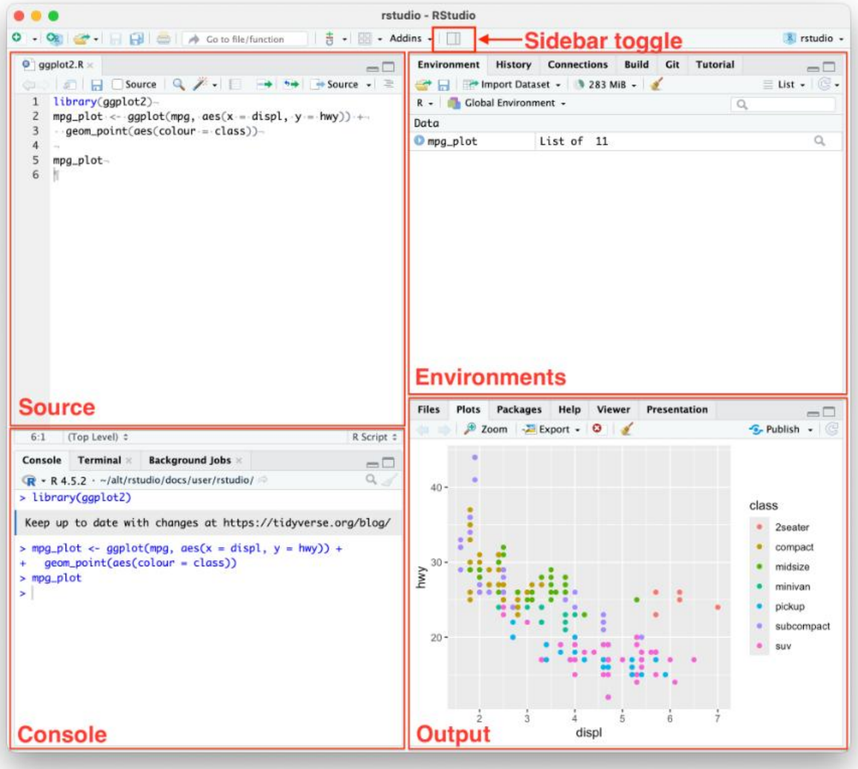

4 Core Quadrants

Layout Setup

Key Shortcuts

ARCHITECTURE OVERVIEW

The 4 Primary Panes

1. Source Editor
Write and edit code.

2. Console & Terminal
Execute commands directly.

3. Environment & History
Track workspace objects.

4. Files & Output Hub
Plots, packages, help page.

TOP-LEFT QUADRANT

Source Pane (Script Editor)

▶ Code Execution

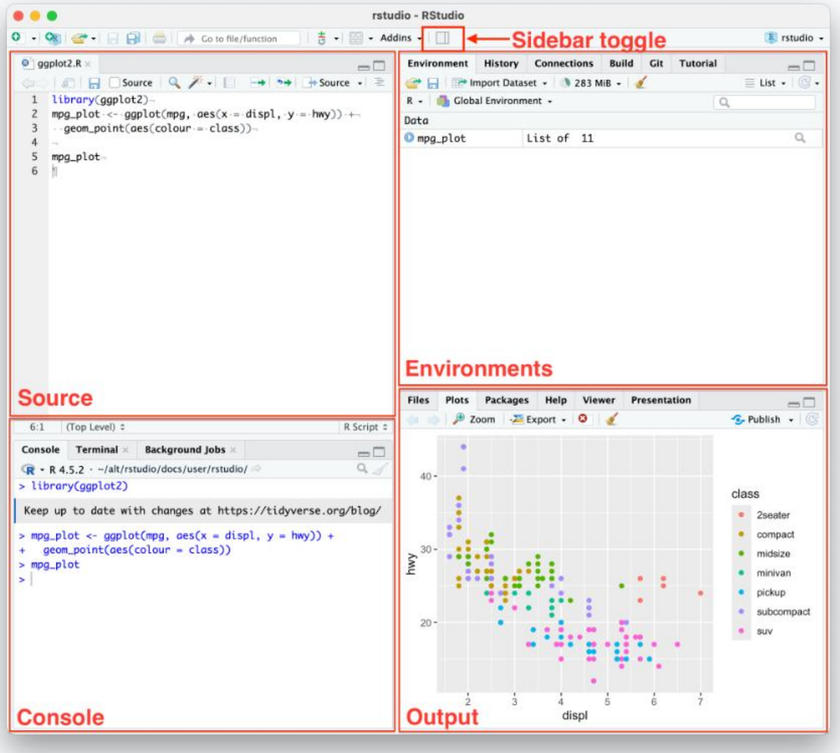

Run selected code lines.

</> Smart Completion

Syntax highlighting for functions.

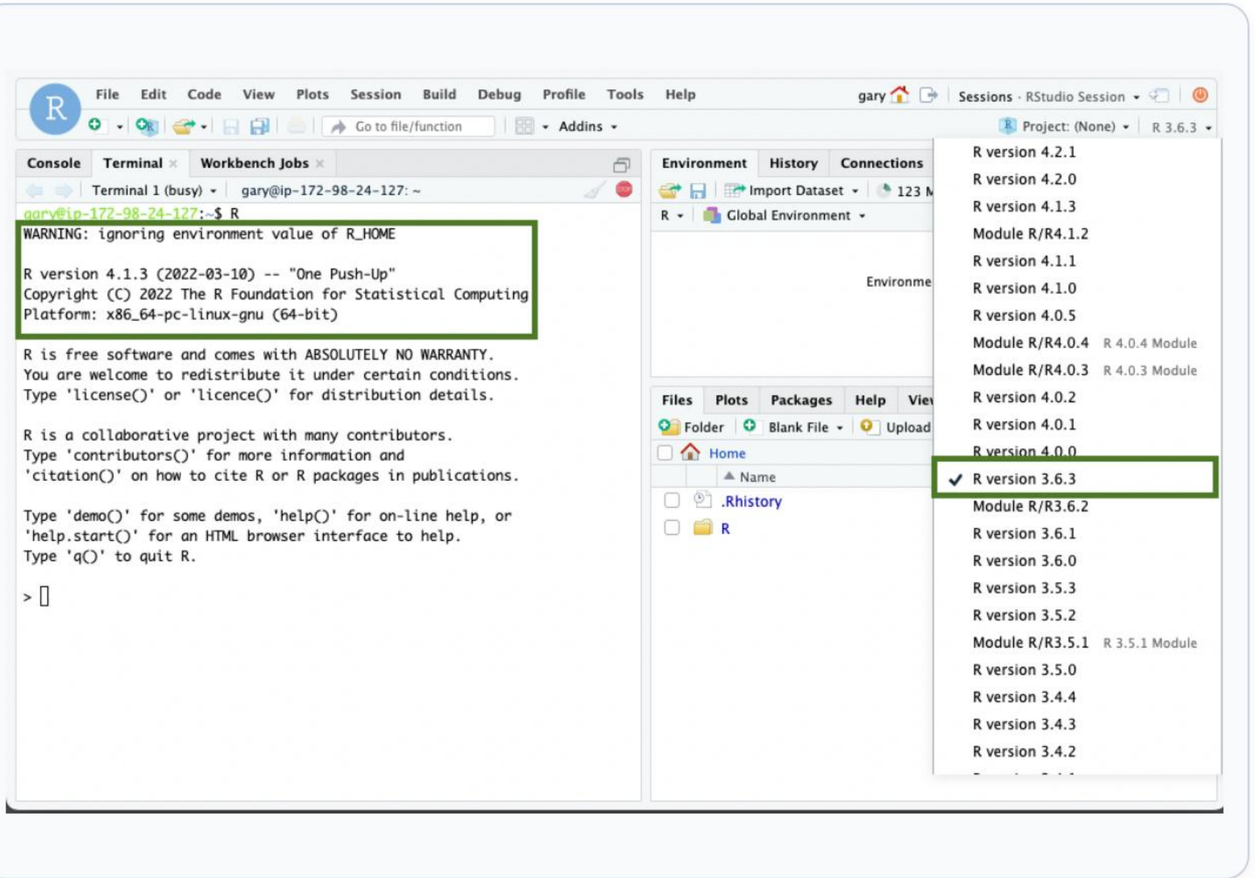

Multi-Format Support

R scripts, Quarto, Markdown.

BOTTOM-LEFT QUADRANT

Console, Terminal & Jobs

Interactive Console

Evaluate R commands instantly.

System Terminal

Direct access to shell.

Background Jobs

Run long scripts asynchronously.

TOP-RIGHT QUADRANT

Environment & Workspace Tools

Object Inspector

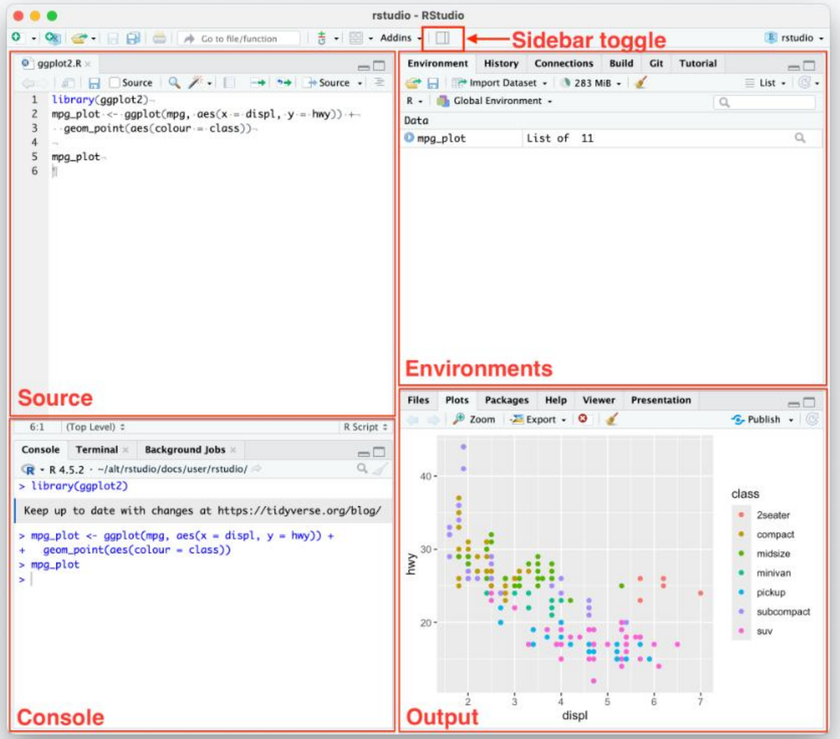

Inspect active workspace variables.

Command History

Log of all executed commands.

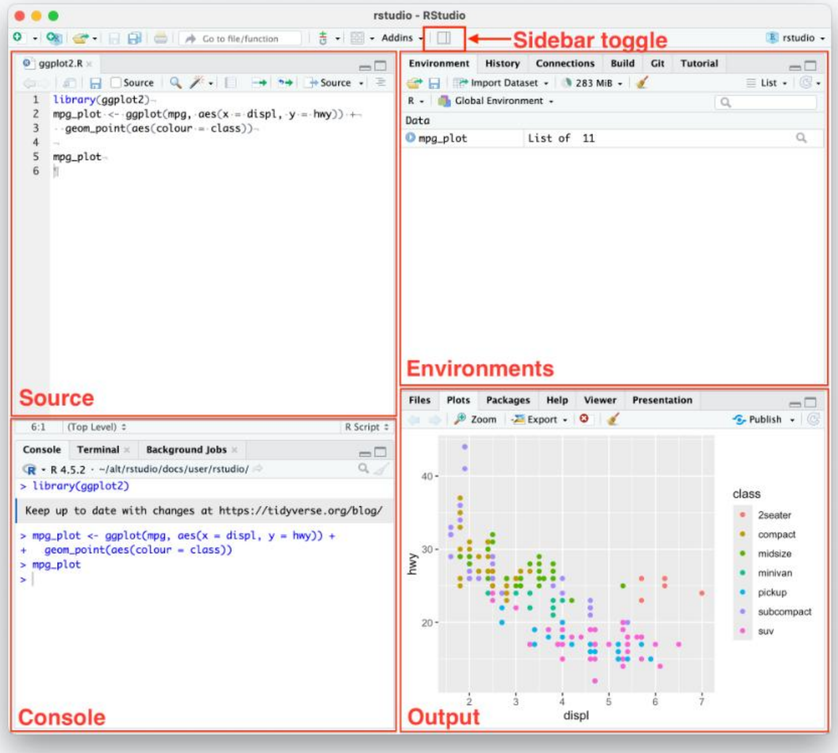

Git & Connections

Direct commit and push UI.

BOTTOM-RIGHT QUADRANT

Files, Plots, Packages & Help Hub

Files Tab
Browse project folder contents.

Plots Tab
Preview generated data visualizations.

Packages Tab
One-click library manager.

Help Tab
Read R function documentation.

DATA INSPECTION SCREEN

Interactive Data Frame Viewer

Grid Preview

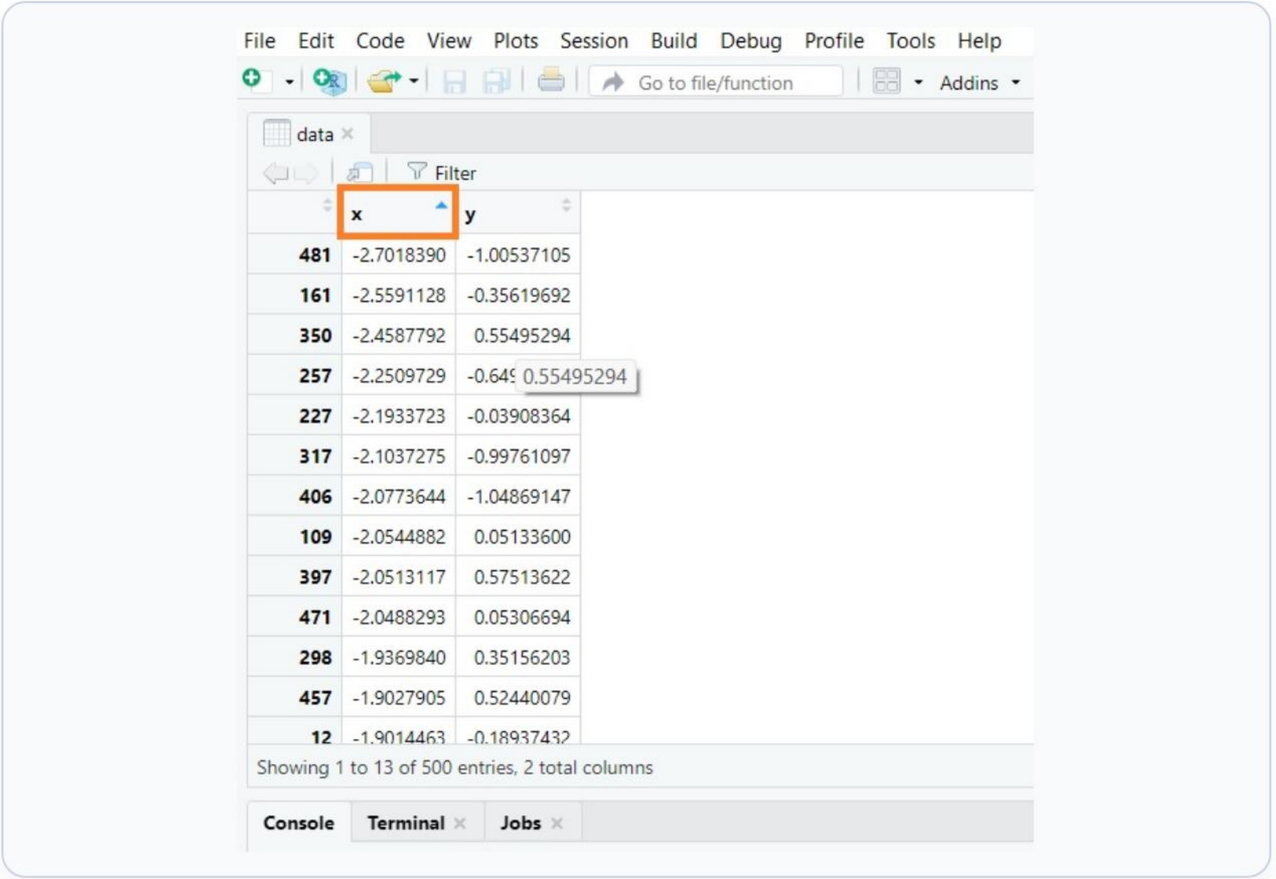

Spreadsheet grid for data frames.

Column Subsetting

Filter columns by criteria.

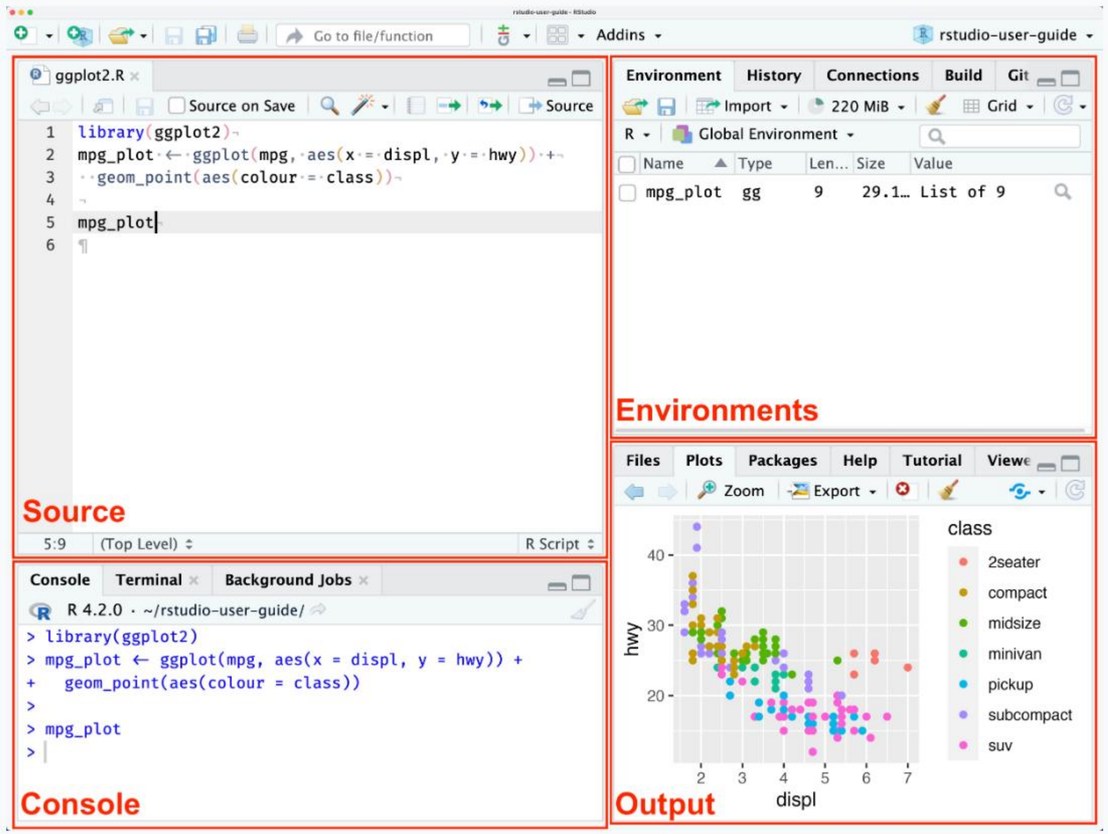

Search & Sort

Sort and search variables.

VISUALIZATION OUTPUT

Plots & Graphic Devices

Canvas Rendering

Render ggplot graphics.

Export Dialog

Export PNG, SVG, PDF.

Interactive Viewer

Preview Shiny web apps.

DEPENDENCY MANAGEMENT

Package Manager & Documentation

CRAN Installer

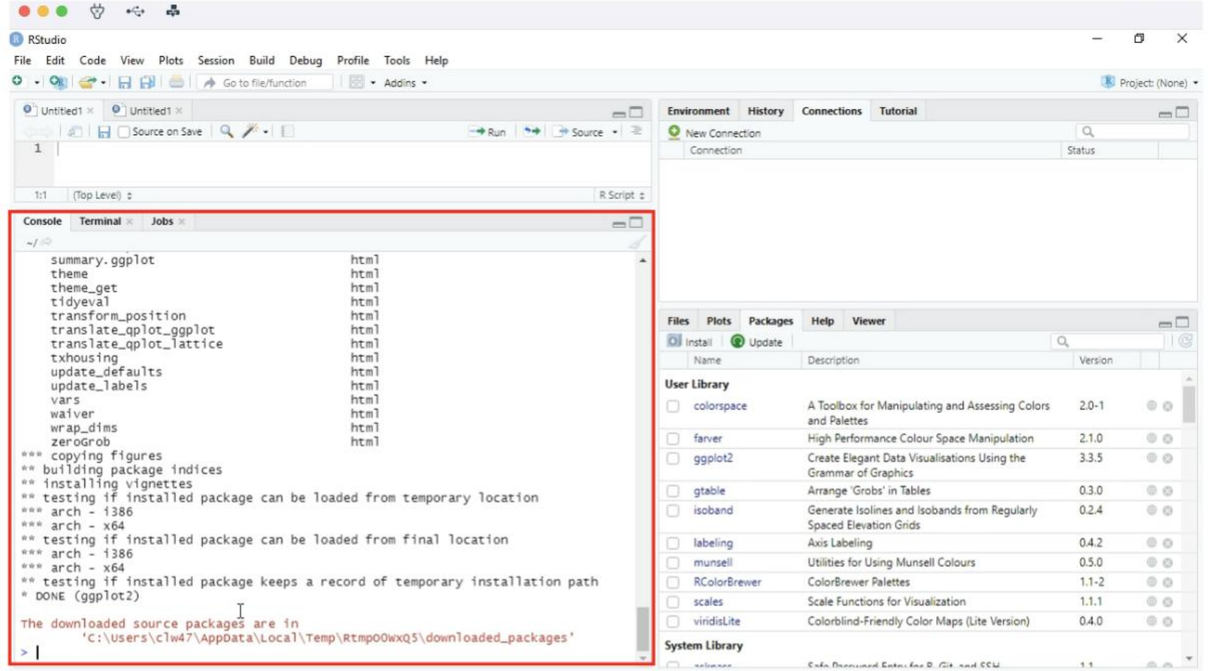

CRAN package search dialog.

Library Loader

Toggle active packages easily.

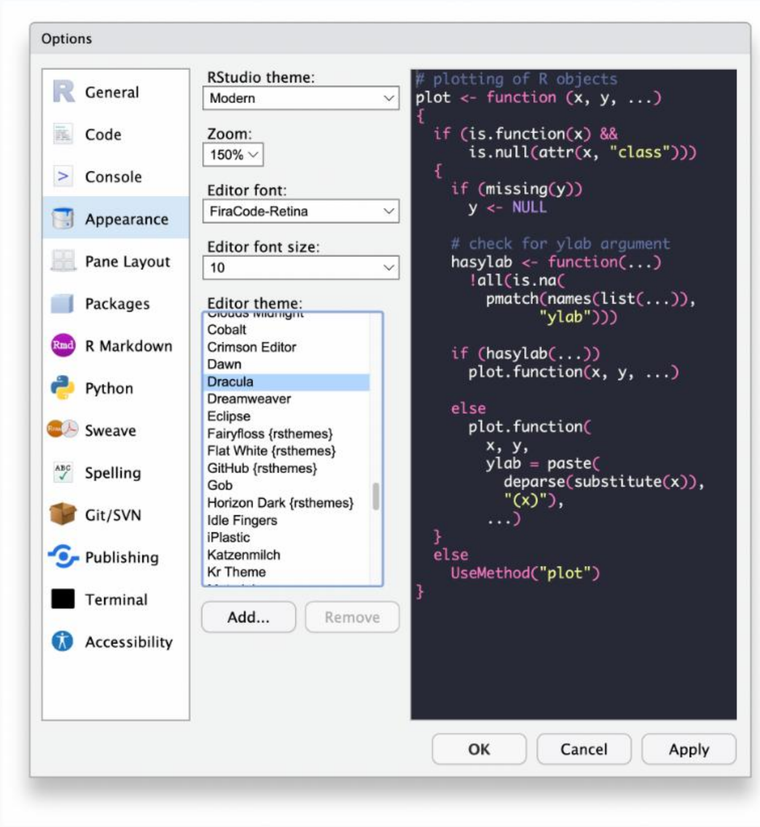

Doc Reader

Search function reference manuals.

IDE CUSTOMIZATION

Global Options: Appearance & Themes

Editor Theme

Select dark mode themes.

Editor Font

Choose editor monospace font.

Font Size

Scale code display size.

WORKSPACE TUNING

Customizing Pane Layouts

Access Menu

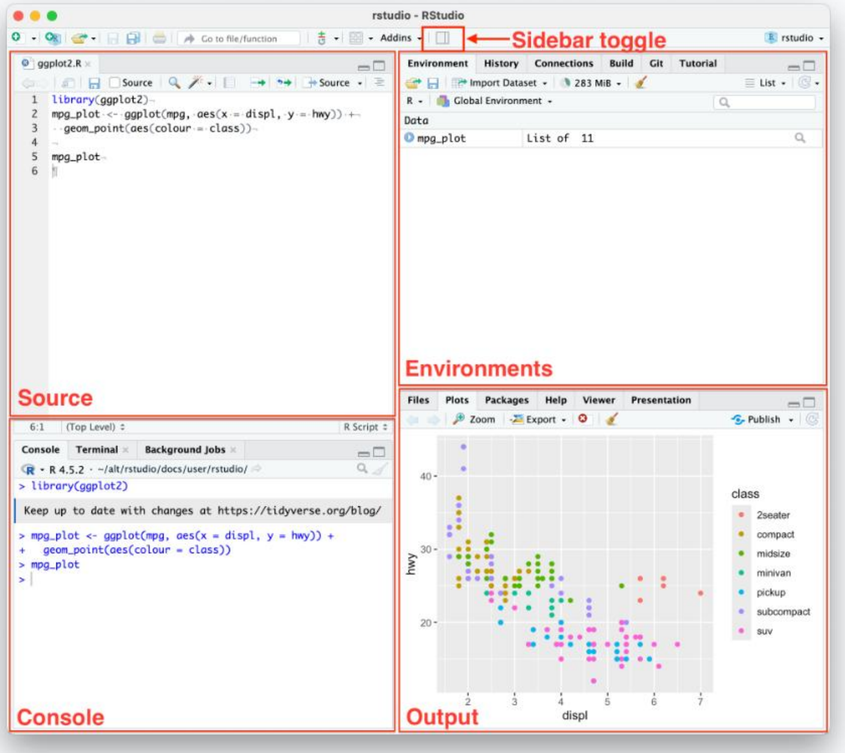

Access via Global Options.

Reorder Zones

Drag and swap quadrants.

Save Presets

Save personal interface layout.

TRAINING SUMMARY

Essential RStudio Keyboard Shortcuts

`Ctrl + Enter`

Run Selected Line

Execute code from script.

`Ctrl + 1 / Ctrl + 2`

Switch Focus

Toggle Source and Console.

`Alt + -`

Insert Operator

Insert assignment operator (←).

`Ctrl + Shift + M`

Insert Pipe

Insert pipe operator (%>%).
